I am the future
of the LGBT community.

I'm gay.

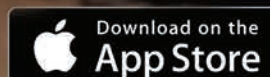

I'm 20 years old. I'm out to my parents. I love parties, the beach, and believe it or not, sports. I have a boyfriend, and we like to laugh at dumb online videos.

But I also read the news. I care about the planet. I'm studying Engineering at college. I voted in the last election and I campaign for marriage equality. Some-day I might want to have kids.

I am the future of the LGBT community. And I read about that future every day on my smart phone. Because that's where I want it to be.
